Re: Letter of Recommendation  
Target, T-2427 - West Palm Beach, Florida

Dear Angel:

Please allow me to express my gratitude and appreciation for the Work that you and your company performed on the Target, W. Palm Beach project.

We were all met with challenges at the beginning of that project, and getting out of the ground was to say at the least difficult considering the time constraints and the impending precast erection schedule. I and my staff appreciated the partnering approach and get in done attitude that Professional Tilt Services took during this time. This appreciation was also not loss during the multiple slab pour operations that transpired after the building was erected. Your ability to work with the necessary changes in the sequence schedule and offer solutions to these challenges was key to successful completion of the project as a whole. Additionally, I personally thank you for your cooperation and understanding as we together dealt with the challenges during the closeout phase of this project.

Ryan Companies US, Inc. values the success of all our projects by the relationships that are built along with them. Based on our experience with Professional Tilt Service, LLC, we truly look forward to continued opportunities in working with your company in the future. I would also not hesitate to recommend your company to other's seeking the same level of professionalize in our industry.

Sincerely  
**RYAN COMPANIES US, INC.**
